

NAKIESHA SCOTT

DeepLearning.AI Certified Prompt Engineer | AI App Developer | Nonprofit Tech Founder

📍 Los Angeles, California | ✉️ lyl@liveyolife32.org | 🔗 linkedin.com/in/nakiesha-scott-89702b126 (<https://linkedin.com/in/nakiesha-scott-89702b126>) | 💻 github.com/liveyolife32 (<https://github.com/liveyolife32>)

PROFESSIONAL SUMMARY

DeepLearning.AI-certified Prompt Engineer and AI application developer with proven expertise building production-ready LLM-powered platforms. Founder of Live Yo Life nonprofit where I architect and deploy AI mentorship apps serving global audiences. Specialized in prompt engineering, agentic AI workflows, and rapid prototyping (7-day delivery sprints). Author of 7 books with deep storytelling expertise applied to crafting authentic AI personalities and conversational experiences.

Core Competencies:

- Prompt Engineering & LLM Orchestration
 - AI App Development (End-to-End)
 - Generative AI Platform Design
 - Web Development (Full-Stack)
 - Content Marketing & Strategic Planning
 - Nonprofit Technology Management
 - Rapid Prototyping & Agile Delivery
-

PROFESSIONAL EXPERIENCE

Founder & AI Platform Architect

Live Yo Life Nonprofit | Los Angeles, CA | 2018 – Present

AI Product Development:

- Architected and deployed **“Glow Up Unbothered”**, an AI-powered mentorship app delivering 24/7 personalized guidance to young women globally using LLM-based conversational AI
- Built **Author Promo Apps** with automated content generation funnels, turning client stories into revenue-generating digital platforms
- Delivered **20+ AI prototypes** for authors, nonprofits, and leaders using 7-day sprint methodology

Technical Leadership:

- Designed prompt engineering workflows for realistic AI personalities with emotional resonance and narrative consistency
- Implemented agentic AI solutions for automated marketing, content creation, and user engagement
- Integrated OpenAI/Claude APIs with custom web applications (Next.js, React)
- Managed full development lifecycle: requirements gathering → design → deployment → iteration

Impact & Recognition:

- Congressional Recognition (2020) for community impact

- Front Page Feature: LA Wave & Hub City Honors (January 2025)
 - Received Keys to Live Yo Life's 1st Building
-

AI Solutions Consultant & Web Developer

Freelance/Contract | Los Angeles, CA | 2020 – Present

- Developed **professional websites and digital funnels** for high-impact leaders (7-day turn-around)
- Built AI-enhanced content marketing systems using prompt engineering and automation
- Consulted with nonprofits on technology strategy and AI integration
- Technologies: HTML/CSS, JavaScript, Python, WordPress, AI API integration

Key Projects:

- AI-driven author marketing platform (automated book promotion + reader engagement)
 - Nonprofit donor management system with predictive analytics
 - AI content generation tools for social media campaigns
-

EDUCATION & CERTIFICATIONS

University of Phoenix | 2013 – 2018

Bachelor's Degree

DeepLearning.AI | 2024

Prompt Engineering Certification

- Advanced prompt design patterns
 - LLM application architecture
 - Agentic workflows and tool use
 - Production deployment best practices
-

TECHNICAL SKILLS

AI/ML Technologies:

- Prompt Engineering (OpenAI, Anthropic Claude, GPT-4, GPT-3.5)
- Large Language Models (LLM) Application Development
- Generative AI Platform Design
- Agentic AI Workflows
- AI Content Generation & Automation

Programming & Development:

- Python (AI/ML libraries, API integration)
- JavaScript/TypeScript
- Web Development (Next.js, React, HTML/CSS)
- API Development & Integration
- Database Management

Tools & Platforms:

- OpenAI API, Anthropic API
- GitHub, Git Version Control
- Cloud Platforms (deployment & hosting)
- Content Management Systems
- Microsoft Office Suite

Soft Skills:

- Strategic Planning & Leadership
- Public Speaking & Storytelling
- Team Building & Collaboration
- Customer Service & Stakeholder Management
- Agile/Sprint-Based Delivery

**PUBLISHED WORKS**

Author of 7 Books | Various Publishers | 2015 – Present

- Expertise in narrative construction, emotional resonance, and audience engagement
- Applied storytelling principles to AI personality design and conversational UX
- Topics: Personal transformation, youth empowerment, community leadership

**NOTABLE ACHIEVEMENTS**

- **Congressional Recognition** (2020) – Community service and nonprofit leadership
- **Front Page Feature** – LA Wave Newspaper & Hub City Honors (January 2025)
- **Keys to Building** – Live Yo Life's First Physical Location
- Built AI mentorship platform serving **global audience** of young women
- Delivered **20+ production AI apps** in compressed timelines (7-day sprints)
- Grew from illiteracy to published author + tech founder

**WHY I EXCEL IN AI/PROMPT ENGINEERING ROLES**

1. **Proven Production Experience:** Not just theory—I've shipped real AI apps serving real users
2. **Storytelling Meets Technology:** Unique ability to craft AI personalities with authentic voice and emotional depth
3. **Rapid Delivery:** Proven track record delivering complex AI solutions in 7-day sprints
4. **Mission-Driven:** Build technology that serves people, not just profits
5. **End-to-End Ownership:** From prompt design to deployment and iteration
